

What is so radioactive?

What stops radiation?

What are gas mantles doing here?

What does this wheel turn?

What makes this bulb light up?

Find the answers at
Koeberg Visitors Centre

Koeberg Visitors Centre is situated at Africa's **first and only nuclear** power station along the West Coast of the Western Cape.

We are ready to share the facts with you, or to answer any questions or concerns, whether it is about nuclear technology, radiation, nuclear waste or the history of the nuclear industry.

How to get there

The Visitors Centre is situated about 35kms north of Cape Town along the R27 West Coast Road, just after **Melkbosstrand**.
